

A hand is shown from the right side, holding a white paper cutout of a house with a chimney. The background is a bright blue sky with white clouds and a green grassy field. A dark blue rectangular box is overlaid on the left side of the image, containing the title text.

Environmental Policy Statement 2014

Ogilvie Construction undertakes Building, Civil Engineering, and Design and Build projects, and is committed to managing environmental issues in a responsible and sensible manner.

In accepting our responsibilities to afford future generations the choices and opportunities that we are currently enjoying, the Company tenders, designs, plans, constructs and maintains construction projects in accordance with an integrated management system, successfully assessed and registered to the provisions of BS EN ISO 14001:2004.

We have examined our environmental performance and identified the areas of our business activities, products and services which interact with the environment.

We are committed to responsibly managing these aspects of our business to avoid, reduce or control pollution and will continually improve on environmental performances in these areas.

We have set objectives and targets within the framework of a programme for continual improvement. We monitor and measure our environmental performance through meaningful key performance indicators, regularly reviewing this progress against our stated objectives.

We will continue to promote sustainable construction objectives and apply techniques for the practical delivery of these principles in project specifications, development, and whole life operation. In addition we will influence others within the Project Team to apply sustainable construction principles and deliver improved environmental performance where they have control or influence.

We will ensure compliance with all applicable legislative and other requirements which relate to the Company's environmental aspects throughout all stages of the project where Ogilvie Construction has control.

We will acknowledge, respond appropriately, and take into account of the views of the public and any other interested parties with respect to our operations and make this environmental policy available to them. In addition, this policy statement will be communicated to all persons working for and on behalf of Ogilvie Construction.

Donald MacDonald
